NOTA<sub>1</sub>: Para verificar los tornillos, sumar al tornillo original la altura del elevador (20 o 30)

NOTA<sub>2</sub>: Al montar el elevador de 30mm es muy posible que el cableado de la moto quede corto, por lo cual deberá substituirse.

NOTE<sub>1</sub>: To verify the screws, add the elevator height to the original screw (20 or 30)

NOTE<sub>2</sub>: When mounting the 30mm lift it is very possible that the wiring of the motorcycle is short, so it must be replaced.
