**Thanks for purchasing the RacingBike / Gabro Racing
RS660 & Tuono660 Airbox Intake Splitter**

NOTE: this part does not fit on stock paper filter element (it is too tick) the use of a sport filter is mandatory.

INSTALLATION:

Refer to the bike's workshop manual to remove the fuel tank and open the airbox.

Remove the air filter, remove the airbox front fixing screw as seen in FIG. A
Install the air splitter with the supplied M5x40 screw already fitted in as seen in FIG. B and FIG. C

Reinstall the airfilter and all the other parts.

FIG. A

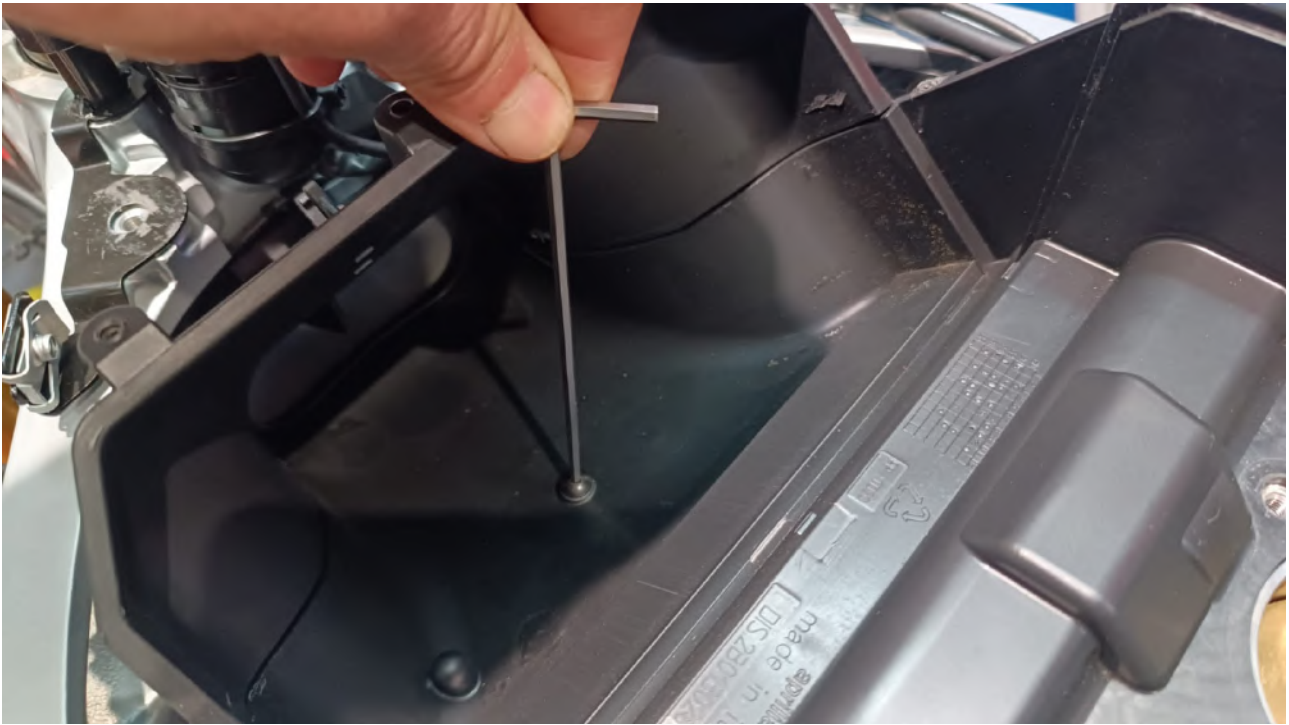

FIG. B

FIG. C

ATTENTION: this is a race product intended to be used on closed courses only.
